VENTURE LAW ADVISORS HIRES MCKAE; CELEBRATES ONE YEAR ANNIVERSARY

GREENWOOD VILLAGE, CO--Venture Law Advisors, LLC ("**Venture**") announced that it hired Bryan McKae as associate counsel to advise and assist Venture's clients in ongoing business transactions. With experiences as co-founder, CFO, and general counsel of a renewable energy startup focused on the deployment of modular, combined heat and power, biomass energy systems and as an acquisitions analyst for a Colorado-based real estate investment firm focused on the acquisition of multifamily housing communities, Bryan provides a unique, deal-oriented perspective to his clients, many of whom are focused on developing businesses and financing projects in the cleantech industry.

"We are pleased to have Bryan join the team at Venture," said Charles Knight, founding member. "His business and financial background, particularly his experience in the biomass energy sector, will significantly benefit our renewable energy clients and his financial modeling and business plan development experience will be of great value to our startup entrepreneurial clients."

Venture also celebrated its first year in business, growing from a single medical technology client in early 2009 to a roster of more than 15 clients engaged in various businesses including solar energy development and finance, biomass power plant development and feedstock cultivation and distribution, medical device manufacturing and distribution, software development for the medical, hospitality and human resources industries, real estate development and construction and business, financial and economic consulting services. "We appear to have found a very interesting niche in which to launch a new law firm," said Knight, commenting on the firms' success during its first year. "We look forward to continuing to serve Colorado's growth companies and entrepreneurs and accelerate the success of their business ventures."
