**VENTURE LAW ADVISORS ELECTS BRYAN MCKAE AS A PARTNER**

DENVER, CO--Venture Law Advisors, LLC ("**VLA**") announced it elected Bryan McKae as partner in the firm, effective January 1, 2011.

The firm hired Bryan in March, 2010, and since then, Bryan's practice has focused on providing general strategic and corporate advisory services to startup and emerging companies. He assists business owners with the formation and structuring of business entities, company and project financing, and the drafting of shareholder and LLC agreements. Bryan's recent work includes drafting and advising renewable energy project developers on feedstock supply, power purchase and other off-take agreements for biomass and solar projects, and the private placement of project development capital.

"The firm is very pleased to welcome Bryan as a partner," said VLA founding member Charles Knight. "We have tremendous confidence in Bryan's abilities and the valuable relationships he has developed with clients. VLA is a boutique law firm that provides general corporate legal and business advisory services to our clients, and Bryan has a unique talent for working through and understanding a wide range of our clients' needs across a broad array of industries."

Bryan's election as a partner underscores VLA's growth strategy and recent success. Companies and entrepreneurs in the renewable energy, software, medical device, entertainment, construction, and healthcare industries are increasingly engaging VLA attorneys for their business and legal expertise and their practical and hands-on approach to advising clients through unique business and legal matters.
